

THE LAST CHICK (TLC)

OFFICIAL WHITEPAPER — VERSION 2.0

Hope That Survives, Inspires, and Creates a New Future.
November 2026 | Built on Base Network

---

1. Introduction

The Last Chick (TLC) is an innovative Web3 project built with the vision of bringing together blockchain technology, community-driven memecoin culture, gaming, the digital economy, and social responsibility. TLC believes that technology becomes truly meaningful when it not only creates digital and economic opportunities, but also serves as a source of hope, compassion, and positive change in people's lives.

Inspired by the symbolic story of the last surviving chick, TLC aims to evolve from a high-energy, community-driven memecoin on Base into a dynamic ecosystem where interactive games, Web3 experiences, NFTs, real-world products, and social initiatives come together.

2. The Story and Philosophy of The Last Chick

In a world overshadowed by darkness, hardship, and uncertainty, one small chick remains alive—a symbol of the last spark of hope and the possibility of a new beginning. The Last Chick is a story about resilience and refusing to give up, even when circumstances seem difficult.

The chick represents everyone who continues to believe in a better future despite life's challenges. It represents children who need opportunities, kindness, and support, as well as vulnerable and abandoned animals that depend on human compassion and care to survive and live better lives.

"Hope should not remain merely a feeling; it should become an opportunity for change and for building a better future."

3. Vision & Mission

Vision: To establish The Last Chick as an international brand and ecosystem in the Web3 space, uniting viral community momentum, gaming, technology, real-world products, and social responsibility within one transparent structure.

Mission:

- Building a globally recognized, community-first memecoin and digital brand on Base.
- Expanding into engaging digital games and interactive Web3 experiences.
- Connecting real-world product commerce with participation in the TLC token ecosystem.

- Supporting children in need and vulnerable, abandoned animals.
- Maintaining strict transparency, long-term token locks, and investor protection.

4. The Last Chick Ecosystem

4.1. TLC Token (Community & Memecoin Core)

The TLC token is the heart of The Last Chick ecosystem. Issued on the Base network, it starts as a vibrant, community-driven memecoin designed for viral growth, accessibility, and seamless on-chain participation, while serving as the primary utility asset across all upcoming ecosystem verticals.

4.2. Digital Games & Interactive Gaming

Gaming is a core pillar of user engagement in The Last Chick universe. By developing accessible, atmospheric survival and community games, TLC creates continuous utility, rewards active participation, and bridges entertainment with token demand.

4.3. Web3 Experiences & Utility

TLC expands Web3 accessibility through Telegram integrations, community reward mechanisms, and decentralized participation tools that connect holders directly to the growth of the brand.

4.4. NFT Collections & Real-World Products

Following the expansion of the community and gaming ecosystem, TLC will introduce curated NFT collections inspired by the Genesis story alongside exclusive real-world merchandise and products. Eligible customers purchasing TLC products will receive token allocations and ecosystem perks, creating a sustainable loop between real-world commerce and digital value.

5. Token Specifications & Valuation Metrics

Specification	Details
Token Name	The Last Chick
Token Symbol	TLC
Network	Base (Ethereum L2)
Token Standard	ERC-20 (Fixed Supply / Non-Mintable)
Decimals	18
Total Supply	1,000,000,000 TLC
Presale Allocation	100,000,000 TLC (10%)
Presale Price	0.001 USDC (1 USDC = 1,000 TLC)
Implied Launch FDV	$1,000,000 USDC
Token Contract Address	0x04B757D7Cb621BFb846d47B161857D5E59F5D40C
Presale Contract Address	0xb7fD96B6800dbEFD6Ba97A5a3c58e4209D7FA73A

6. Tokenomics & Long-Term Vesting / Lock-Up Schedule

To protect investors and prevent sudden market supply shocks, The Last Chick enforces strict long-term lock-up and vesting schedules across team, development, and liquidity allocations. Total supply is permanently capped at 1,000,000,000 TLC with zero minting capability.

Allocation	%	Token Amount	Lock-Up & Vesting Policy
Liquidity	25%	250,000,000	Locked to ensure deep market stability and DEX trading
Marketing	20%	200,000,000	Gradual release aligned with global growth campaigns
Ecosystem	20%	200,000,000	Dedicated to gaming rewards, community incentives & growth
Development	15%	150,000,000	Milestone-based phased unlock tied to technical delivery
Presale	10%	100,000,000	Public presale allocation for early supporters
Team	10%	100,000,000	6-Month Full Cliff, followed by 24-month linear monthly vesting
Total	**100%**	**1,000,000,000**	**100% Fixed Supply — Non-Mintable Smart Contract**

7. Token Utility & Value Accrual Mechanisms

Beyond its viral memecoin identity, TLC is engineered with concrete demand drivers to reward long-term holders:

- **Real-World Product Benefits:** Holders and customers paying with or holding TLC receive exclusive discounts, early product drops, and bonus token rewards.
- **Gaming Integration:** TLC serves as the core reward and utility currency within The Last Chick gaming ecosystem.
- **Community Governance:** Token holders participate in key ecosystem decisions, feature priorities, and humanitarian allocation votes.
- **On-Chain Transparency:** All presale transactions, supply caps, and vesting schedules are verifiable directly on the Base blockchain.

8. Presale & Smart Contract Infrastructure

The TLC presale operates transparently on the Base network using USDC at a fixed rate of **0.001 USDC per TLC** (1 USDC = 1,000 TLC). Participants require USDC on Base and a small amount of Base ETH for network gas fees. All transactions are recorded immutably via the official presale smart contract: **0xb7fD96B6800dbEFD6Ba97A5a3c58e4209D7FA73A**.

9. Social Responsibility & Humanitarian Mission

True success is measured by positive real-world impact. TLC dedicates part of its long-term brand mission to supporting underprivileged children in need of care and educational opportunities, as well as protecting vulnerable and abandoned animals.

10. Strategic Roadmap

Phase 1: The Birth of TLC: Establishing brand identity and narrative; deploying the TLC ERC-20 smart contract on Base; launching the official website (thelastchick.com) and communication channels; onboarding the initial community.

Phase 2: Community Growth & Memecoin Momentum: Expanding the global TLC holder base; establishing strong recognition as a leading community-driven memecoin on Base; scaling social campaigns and strategic partnerships.

Phase 3: Gaming, Web3 & Ecosystem Expansion: Launching interactive digital games and Telegram gaming experiences; introducing Web3 utility features; deepening token integration across digital platforms.

Phase 4: NFT Collections & Real-World Products: Releasing Genesis NFT collections; entering the commercial market with exclusive TLC physical products; connecting real-world retail with token rewards and advancing humanitarian initiatives.
